Impressions Total (max 160 pts.) **142** 10% **100**

Dan Sanchez	36
Trevor Reed	36
Mark Williams	36
Chris Woodyard	34

Total Points **938**

* Adjusted score reflects how this truck fared against the best truck in each category. For example, say the best mpg performer got 10 mpg, and the second place finisher got 9 mpg. The winner would receive 100 points in that category, and the runner-up would get 90 points, as 9 is 90% of 10.

**The top vote getter in each category received 100 points; the runners-up received a proportional score based on how they were to the winner. For example, in the Value category, say the winner got 400 points and the runner-up got 300 points. The runner-up would get 75 points, as 300 is 75% of the top 400-point score.
